Teaching Evaluations

Hung Le

Courses Taught as Teaching Assistant at Aalto University

- Math Camp, Ph.D. level: Aug 2024, Aug 2025
- Empirical Industrial Organization, M.Sc. level: Oct 2024, Oct 2025
- Principles of Economics, B.Sc. level: Sep 2022, Sep 2023, Sep 2024, Sep 2025
- Intermediate Macroeconomics II, B.Sc. level: Mar 2023, Mar 2024, Mar 2025
- Mathematics for Economists, B.Sc. level: Oct 2021

TA evaluations

- Math Camp, Ph.D. level, Aug 2025: 4.63/5 from 19 responses
- Principles of Economics, B.Sc. level, Sep 2025: 4.67/5 from 15 responses

Math Camp, Ph.D. level, Aug 2025, 4.63/5

- I think you have done a great job of explaining solutions, even though the pace is fast. It really helps my understanding.
- Very nice teaching! You have been clear in your explanations. Have a nice rest of August!
- I don't like this course. You have been helpful though.
- Clear presentation of material. Nice job! Motivating words. Be careful when writing on the board, sometimes it's hard to read.
- The assignments were quite lengthy given the amount of time. The TA was good.
- Good lectures, nothing to complain about.
- I like the positive attitude you have around the course despite it being difficult. The feedback on the grading was unclear. There were some random numbers.
- Nice job, maybe a bit clearer handwriting would be easier to follow. Also, sometimes it was a bit too fast, but thanks.
- Clear, inspired.
- I don't see any major thing that could be improved. Good job! (the results depend on the student)

- Thank you! Very helpful tutorials.
- So fast at grading the problem sets!
- Very good!
- Thanks for the course!
- Math Camp has been great! Maybe solutions to old problem sets could be nice.
- Overall good! Some things could be explained more, but perhaps other people already know more about them.
- Maybe more time for solving the problem sets or a time allotment for lunch

Principles of Economics, B.Sc. level, Sep 2025, 4.67/5

- Hung is a good teacher. He breaks the steps down and makes things easier to understand. There is a lot to cover in each session, so maybe there could be more sessions.
- You explained everything clearly and well! The sessions were really helpful.
- Very good explanations. I would appreciate it if you could slow down a bit when explaining, I'm a little slow and need more time to understand things.
- The only thing I would want is that from week 3 to week 5, we could have 2 TA sessions because the amount of time was not enough for the number of exercises. In general, you are doing great, I don't have anything to complain about.
- Good tutoring, good guy, has good knowledge.
- I am really grateful for your attentiveness and great insight during each session. Without your help, it would not be possible for me to get through each lecture's materials without crashing out. I hope I can still have you as a TA next course!
- Please apply for the TA position for Math for Economists.
- I appreciated the time you spent working through the questions & providing a practical approach to the material. Thank you!
- The TA sessions really cleared things up. Thank you!
- It was really useful to go through the quizzes together!
- I felt like the coursework was not very related to the quizzes, only the exam.
