Hung is a good teacher.

He breaks ~~the~~ steps down, makes it easier to understand.

There is a lot to cover for each session so maybe there could be more sessions

Very good explanations. I would appreciate if you could slow down a bit when explaining, I'm a little slow and need more time understanding things.

The only thing I would want is from week 3 to week 5, we could have 2 TA sessions because the amount of time is not enough for that amount of knowledge.

In general, you are doing great, I don't have anything to complain.

I am really grateful for your attentiveness and great insight during each session. Without your help it would not be possible for me to get through each lecture's materials without crashing out.

I hope I can still have you as a TA next course!! – ngeng

I felt like the course work was not very related to the quizzes, only the exam.
